123 and 125 MAIN STREET.

### Mid-Summer COST - SALE Now Going On.

## MUNSON AND McNAMARA

Drink Arcadian Waukesha Ginger Ale

Aerated Arcadian Waukesha Mineral Water.

Bottled Direct at the Spring at Waukesha, Wisconsin. Awarded the Gold Medal at the World's Exposition at New Orleans, defeating all Competitors, Both Foreign and Domestic.

### THE ARCADIAN GINGER ALE

Is of rare excellence, being pronounced SUPERIOR to the imported, and unapproached by any domestic variety. Prepared in a completely equipped laboratory under the direct supervision of the Vice President of the company, and made from the choicest variety of freshly imported Jamaica Ginger Root, the juice of tropical fruits. ARCADIAN WATER Direct from the Springs, and Lost Sugar, it has been pronounced by eminent medical authorities the most perfect example of an aromatic, non-alcoholic stimulant, while as a beverage it is simply delicious.

### ARCADIAN GINGER ALE

is a delightful beverage in either hot or cold weather, and no summer drink is more healthful or refreshing.

### THE ARCADIAN AERATED WATER

Is also unrivaled as a Natural mineral water of phenomenal purity, charged with Pure Carbonic Acid Gas. Of it such eminent authority as Prof. Henry M. Lyman states: "The Arcadian Aerated Water is far superior as a table water to the much vaunted Apollinaris. It can confidently be recommended in preference to every other variety."

### ARCADIAN MINERAL WATER.

"THE IDEAL WAUKESHA WATER."

Has been found invaluable in the treatment of diseases of the Kidneys and Bladder, such as Bright's Disease, Diabetes, Stone in the Bladder, etc., diluting and neutralizing the uric acid, allaying inflammation, freeing the urinary passages of obstructions, and acting as a powerful diuretic. The water is of great medicinal value for many years past, has been pronounced by the highest medical authorities to be the most perfect of all mineral waters. The Arcadian Aerated Water is far superior as a table water to the much vaunted Apollinaris. It can confidently be recommended in preference to every other variety."

Come and see me before buying.

ROOMS 24 & 25 BITTING BLOCK.

Jno. Kelly, Real Estate Broker.

Reference: Any bank in the city, any county officer, or any old settler in the county or state.

### THE HOT WAVE CEASETH

The Terrible Trying Temperature of the Past Week Giving Way to

A More Tolerable Degree All Over the Country—Rain Falls.

And a Cool Wave Refreshing the Atmosphere in all Directions.

Oswego, Kan., Reports the Poisoning of Family and a Wichita by Eating Ice Cream.

Drouth Broken in Many Portions of the State by Copious Rains Bountiful Crops of Corn Assured.

THERMOMETRIC. The Temperature Ranges on a Sliding Scale.

WASHINGTON, July 19.—It rained heavily last night and this morning, the thermometer registering at 72 degrees, a drop of 11 degrees from the previous morning.

At the signal office it was stated that the temperature had fallen during the past 24 hours all over the country excepting in New England and a small portion of the Atlantic coast, along South Carolina and Georgia. In the former locality lower temperature was not needed and in the latter the heat will moderate, as there is a cool wave going in a southerly direction. Cooler weather, it is said, may be looked for during the day or two but there is nothing to warrant its continuance and the atmosphere may run up again, though thanks to a cloudy air making its way down from the northwest the heat will not be as intense as the past week.

PITTSBURG, July 19.—Five fatal cases of sunstroke were reported today. The thermometer at noon registered 84 degrees, which is 10 degrees cooler than at the same time yesterday. A good breeze is blowing with indications of rain.

ST. LOUIS, July 19.—The weather has moderated greatly within the past twenty-four hours. Last evening a cooling breeze set in and today the thermometer has not yet reached 90 degrees. There have been no prostrations from heat today and a delightful breeze is assisting in the recovery of those stricken down Sunday and Monday. Ordinarily this would be a hot day but coming immediately after the scorching fifteen degrees difference is appreciated.

CINCINNATI, July 19.—Although the hot spell was broken last night and the thermometer only reached 94 today, there were thirteen deaths reported today. Most of these were persons who were prostrated yesterday.

### STATE NEWS.

Poisoned by Eating Ice Cream.

OSWEGO, KAN., July 19.—F. L. Greene and family, of Oswego, and F. A. Jones, of Wichita, were poisoned this evening by eating ice cream. At present all of them are getting along as well as could be expected under the care of two doctors.

The Heat, notwithstanding.

KINGMAN, KAN., July 19.—We are having a bountiful rain. This insures a magnificent corn crop for Kingman county. The street railway track is going down rapidly. Electric light poles are going up likewise. Work has begun on a new two-story brick block seventy-five by one hundred feet, and in spite of the hot weather Kingman boometh.

Rush County Seat Racket.

LA CROSSE, KAN., July 19.—The board of county commissioners, after being in session fifteen days canvassing the petition, found that twenty-seven more than two-thirds of the legal petitioners of Rush county had signed the petition asking for the election to permanently locate the county seat at La Crosse. To end this long fight an election is to be held August 23.

Drouth Terminated.

JUNCTION CITY, KAN., July 19.—The drouth has terminated and this section is now being favored with a splendid rain. At this hour, 2 p. m., it is still raining hard. This will greatly benefit late corn.

Wheelmen at Paola.

PAOLA, KAN., July 19.—The second annual meeting of the League of American Wheelmen which has been in session here since yesterday morning is becoming more interesting each session of the programme. The races this afternoon took place in Walnut Grove Park just north of Paola, and by the time the appointed hour for the race arrived the park was filled with spectators. The first race was half mile and won by E. R. Jewett of Leavenworth, time 1:32.

The second was half mile open, and won by S. Ray of Kansas City, time 1:29. Third—One hundred yards, slow race, won by Harry Gordon of St. Louis. The fourth was for the championship of Kansas, one-half mile. The contestants were: E. R. Jewett, of Leavenworth, H. S. Hale, of Junction City, and H. H. Everest, of Lyons. Mr. Jewett won. Time 1:40 1/2.

The last race of the day was a three mile open, and was won by Harry Gordon, of St. Louis. Time 10:41. Fancy riding is now in progress in the city park. There are about one hundred wheelmen present, and nearly that number additional are expected tomorrow, as it is the last day.

A Magnificent Prize.

RUTHERFORD, N. Y., July 19.—A movement has been inaugurated among leading business men of Rutherford to raise a fund of \$100,000 which will be offered as a prize for the best invention for utilizing the water power of Niagara river. Competition will be open to the world. Several prominent citizens have already subscribed \$1000 each toward the fund.

Business Education Convention.

MILWAUKEE, WIS., July 19.—The Business Education Association of America opened its ninth annual session this morning at the rooms of Spencerian College. President Sadler delivered the opening address. About seventy-five delegates were present.

### Republican Success Prospected.

NEW YORK, July 19.—Senator Dwight M. Sabin, of Massachusetts, was in New York today on his way to Boston, where he will embark for a yachting cruise with Mr. Watson and others. Bay state statesmen in conversation with Sabin said, "I have been devoting my time since congress adjourned to my private business, and have had little to do with politics. As to the presidential candidates for 1888, Mr. Elaine seems to be very strong. He has many warm friends in my state who will support him through thick and thin. But to have the delegation will go to the convention that is more than I can predict. Mr. Sherman has friends, too, in Minnesota, and the belief is strong among Republicans that if he is nominated he will be elected. Mr. Elaine is a dark horse. I think, beyond a doubt if he runs, I was some, skeptical as Mr. Elaine's strength before he ran in 1884; I did not think he could carry the Irish-American vote, but he did, and he can do it again and be elected by a large majority."

Personally I do not know of any man who I would rather see president than Mr. Elaine. He has certainly done enough to earn that high office from the hands of the Republican party. But party expediency should be taken into consideration, and I firmly believe that no matter whom the United States assembly will be heartily supported and elected. The dark horse business is played out. The people want to know beforehand who the dark horse is and not make any experiments. Now, Senator Allison is known as a dark horse candidate. Well, we all know him and he can scarcely be called a dark horse. If he is nominated he will be elected. The question? Well, it is pretty mixed up. I think, though, a solution can be arrived at when congress meets. The senate is perfectly willing to do something, but you see the Democratic house dangles along from session to session and leaves the tariff just as it was before.

### National Retail Shoe Dealers.

CHICAGO, July 19.—Two hundred delegates to the second annual convention of the National Retail Shoe Dealers of the United States assembled in convention in this city this morning. A cordial welcome was extended by the local committee to the visitors after which J. K. Brown, of Worcester, Mass., the president of the national association, read an exhaustive address touching upon the importance of maintaining their trade rights in these days of unscrupulous greed for wealth. It was time for the retail boot and shoe dealers to look sharply after their interests. He roasted the manufacturers who retail shoes from their factories at prices lower than retail are able to procure.

Those middle men who "held up" the retailers for royalties were also handled gloomily. He advised boycotting manufacturers who retail from the factory. He denounced in unmeasured terms the rubber goods monopolists and suggested the organization of a stock company composed of retail dealers to manufacture rubber goods and not combine. He complimented the association on its introduction at its last meeting of the standard shoe measure and insisted on its being energetically extended. He requested that members report names of those retailing doing an unfair business and insisted on thorough organization. Reports were read showing a vigorous growth of the organization.

### Lone Star Soldiers.

SAN ANTONIO, TEX., July 19.—For some time there have been bids before a committee of the city council looking to lighting the city by electricity. After much deliberation the committee decided to accept the terms of the Southern Electric Company, of Dallas, who were locally represented by Mr. Cole, a member of the board of directors. They so reported to the council today. Alderman Belknap, president of the street railway lines and an important officer of the G. A. R., arose and objected. He opposed hasty action and wished further time. He was impelled by information given him that the board of directors had been offered bribes in behalf of the company. He did not name them. The acceptance of the bid went over, and the mayor appointed Councilmen Schreiner, Lewis and Guerguin a committee to investigate the charge.

### Storms at Baltimore.

BALTIMORE, July 19.—The storm of yesterday afternoon was followed by another of almost equal force about 2 o'clock this morning. Several houses on Cumberland street near Gilmore were struck by lightning and the roof of one of them was almost entirely destroyed by rain. Harlem park, the most beautiful resort within the city, this morning presents the appearance of desolation; nearly all trees are damaged and many of them entirely destroyed. Unroofed houses are seen all over the western section of the city and the aggregate damage is heavy, though individual losses are comparatively light. At the city Marine hospital, down the Patapsco river the hall of yesterday afternoon broke all the windows on the south side and the entire building was flooded. The rain fell for 12 hours and at 4 o'clock this morning was one and three-eighths inches.

### The Texas Murder Mystery.

GAINSVILLE, TEX., July 19.—After five days analysis of every circumstance attending the murder of the two girls, conjecture is beginning to connect the assault upon these two girls with a horrible series of murders in Austin two years ago. Nine women were killed in just twelve months time in that city. There was never an explanation to the murders except that they were the work of a maniac. A horrible fear is beginning to spread that he has begun his work here. Another report seems to come from a reliable source that Capt. Watkins was in an interview that Miss Gene Watkins was a very important witness in a case several years ago wherein a man was sent to the penitentiary for robbery, and that Owens sentence was out a few days before this murder was committed.

### Disruption Threatened in the K. of L.

MILWAUKEE, July 19.—Gambirinus Assembly, Knights of Labor, is getting ready to secede from the order on account of the temperance views held by General Mills Workman. Gambirinus assembly has the most numbers and is the wealthiest organization of the order in Milwaukee and has from 1,000 to 1,500 members. Employees in breweries are practically unanimous that they cannot remain with the order. At a recent meeting a committee was appointed to confer with the brewers and ascertain whether the contract made for one year in May would be affected if they left the order.

### Mortality Among Children.

PITTSBURG, PA., July 19.—The mortality among children in Pittsburgh and Allegheny during the past six weeks is something appalling. In June 568 children under five years of age died, and since the first instant there have been 598 deaths, making a total of 1,166 in the six weeks. The number of deaths under two years of age is 375, and under two years of age.

### THE NATIONAL CAPITAL.

Residents of Mineral City on the Neutral Strip Chide the President

For His Failure to Sign the Bill Annexing No Man's Land.

Captain J. F. Simpson Recommended for Retirement by Gen. Holabird.

An Interesting Point Concerning the Marriage of Slaves Decided by the Chief Justice.

Investigation Ordered by Commissioner Sparks Into Alleged Frauds in Swamp Land Entries in Minnesota.

### CAPITAL BUDGET.

CHIDING THE CHIEF.

WASHINGTON, July 19.—A petition signed by ten residents of Mineral City, which is on the Neutral Strip known as "No Man's Land," laying south of Kansas, has been received by the president, deprecating his failure to sign the bill passed by both houses of congress at the last session annexing "No Man's Land" to the state of Kansas. The petitioners represent that for years past that country has been monopolized by large and influential cattle companies, many of them foreign corporations, which fenced off for their own purposes thousands of acres of valuable land, and kept every one else out. They are spending their money in building, and yet they cannot get title to the ground they are building upon; business is impeded because trade is unprotected. The petitioners ask that their statements be investigated, and such action be taken as will best protect them in their rights.

In reply to a letter to a cattle owner on tract known as No Man's Land, asking whether a portion of the herders occupying the land can form an organization and adopt a herd law to govern the free range men, Land Commissioner Sparks stated that no person, organization or entry under any of the public land laws, and I have heretofore recommended the employment of the military forces to remove occupants therefrom who are not actual settlers, or who are using or controlling more than 160 acres.

### AN INTERESTING POINT.

Concerning the proof required to prove the marriage of slaves was decided here today by the court in general term. The chief justice announced that the judgment below would be affirmed in the case of Milly Thomas against Ragon. This was an action in ejectment for real property, and when first tried the verdict was for the defendant. The principle point in the case was that the parents of the plaintiff had been slaves and the question of proving their marriage was involved. The plaintiff claimed that she could prove such marriage by reputation, but was overruled. The case went up to the general term and the judgment for defendant was reversed. On the second trial the verdict was for the plaintiff, and the case going to the general term this morning affirmed.

### THE ARMY RETIRING BOARD.

Of which Quarter Master General Holabird is president, has recommended the retirement of Captain J. F. Simpson, Third Cavalry, who is now under treatment at the government hospital for the insane. Captain Simpson is the officer who created a scandal in Arizona a few years ago by his conduct with a notorious woman. He was court-martialed and sentenced to dismissal. President Arthur, however, disapproved the findings of the court martial and ordered the officer restored to duty. He was ostracized by his brother officers and was subsequently sent to an insane asylum for treatment. He will probably be retired as soon as a vacancy occurs in the retired list.

### HEROISM REWARDED.

The secretary of state has received through the German minister at Washington from the emperor of Germany a check for \$1,000 and two handsome gold watches embellished with the likeness and monogram of the emperor, with a request that the money be divided equally among the families of the five members of the life saving crew at Danvers Mills station, Virginia, who lost their lives in attempting to rescue the crew of the German ship Elizabeth on the 8th of January last, and that the watches be presented to Frank Tedford and Joseph E. Etheridge, the only survivors of the life saving crew. The saving crew at Danvers Mills station, Virginia, who lost their lives in attempting to rescue the crew of the German ship Elizabeth on the 8th of January last, and that the watches be presented to Frank Tedford and Joseph E. Etheridge, the only survivors of the life saving crew. The saving crew at Danvers Mills station, Virginia, who lost their lives in attempting to rescue the crew of the German ship Elizabeth on the 8th of January last, and that the watches be presented to Frank Tedford and Joseph E. Etheridge, the only survivors of the life saving crew.

### BELEAGUED EMBASSY.

Dispatches have been received at the department of state from the U. S. minister to Belgium announcing that the government of that country has increased the import duty on coffee and on meat and that after January 1 next meat will be prohibited to enter Belgium except in the form of whole animals and halves and forequarters of animals, and then only when the lungs are attached.

### INVESTIGATION ORDERED.

The secretary of the interior has ordered Land Commissioner Sparks to issue pat cuts to the state of Minnesota for certain swamp and overflowed lands in the Duluth, Minn. land district, which the latter had suspended because of the allegations of gross errors and frauds. The secretary states that no evidence supporting these charges has been furnished except as to townships 61 and 62. The surveyor of these townships certifies that he does not believe that his field notes were ever turned over to the surveyor general, but that false, fraudulent ones were turned over instead. The surveyor further states that the land represented as swamp is the only valuable land in these townships. The secretary is of opinion that his evidence is sufficient to warrant investigation, which he directs to be made at once, pending the issue of patents to the lands in those townships.

### Pacific Railroad Investigation.

CHEYENNE, WY., July 19.—The Pacific railroad investigation commission had a public session here today. Ex-Gov. Warren said that the extension of the Burlington & Missouri and of the Chicago & North Western route into Wyoming will have the effect to tap the territory naturally tributary to the Union Pacific and deprive that road and Cheyenne City of part of their present business. In reference to a question by Gov. Pattison as to why the United States government should assist the Union Pacific to build the branch line, he said as in the case of any other debtor it should be assisted by its creditor into position where it could pay.

Other witnesses testified to the necessity for feeders for the Union Pacific through out Wyoming, in order that Cheyenne may retain and develop its character as a distributing point for the territory. It appeared that R. S. Vantassel has a monopoly of the stock yard business at Cheyenne, also that the Union Pacific is owner of Rock Springs coal mines. Mr. Hebard's testimony was to the effect that while clerk in the U. S. office at Cheyenne, between '79 and '81, coal was billed by the company to individuals at \$3.50 a ton from Rock Springs to Cheyenne, while to the Government it was billed at \$8.50 from Rock Springs to Camp Carlin a short distance from Cheyenne.

### Uneasy Utes.

DURANGO, COLO., July 19.—Rumors of trouble between settlers and cowboys and Ute Indians in the western part of this county and southeast Utah are numerous. Henry Hopkins, who was cook for a camp of cowboys at Crook canyon, in the western part of this county, was found dead—shot in the back—a few days ago. It is believed to have been the work of the Indians.

It is well known by the cowmen that a large number of the Utes have been off their reservation in the past few days, and are entering in great numbers, and fear are entered in for straggling settlers who have ventured forty or fifty miles west of the settlement in the Montezuma Valley.

### Illinois Crop Pests.

SPRINGFIELD, July 19.—A letter was received here today from Prof. Forbes, state entomologist, in which he states that chinch bugs have obtained a foothold in the northern portion of Illinois to such an extent as to assure an immense number of them next year, unless weather favorable to their development should intervene. He says the danger from this source threatens to damage the wheat crop of 1888 to an extent in comparison with which the pleuro-pneumonia and other recent outbreaks of contagious diseases among domestic animals will be insignificant. The entomologist's investigation in the southern sections of the state develop the fact that there is no cessation of the chinch bug devastation in that direction.

### Mexican Demonstration.

CITY OF MEXICO, July 19.—The death of President Diaz was observed with great enthusiasm; hundreds of buildings displayed the American colors draped with black, many American flags were seen at half mast. Thousands of persons lined the streets along the route of the procession to the country of San Fernando where the artistic tomb of the dead patriot stands. The procession was composed of civic societies with various sets of school children, survivors of Juarez's army and federal troops. Along the line of march the procession was greeted with applause and cries of "Death to the priests" were frequently heard; the populace taking the celebration to mean an anti clerical demonstration.

### Mortified and Would Succeed.

OWENSBORO, KY., July 19.—Arthur W. Weir, son of Mr. James G. Weir, President of the Deposit Bank of this city, was arrested yesterday afternoon for intoxication, and confined to the lock up. Shortly after his incarceration he attempted suicide by hanging himself to his cell with a cord made from his suspenders. After he had been hanging some minutes he was discovered by a colored prisoner, whose cries brought the turnkey to the unfortunate man's assistance. He was cut down in time to save his life. Mortification over his arrest is supposed to have caused him to make the attempt upon his life.

### Flux Epidemic in Missouri.

CHILLICOTHE, MO., July 19.—A virulent type of flux, having serious symptoms of cholera, is epidemic around Eminence, Mo., in the northeast part of this (Livingston) county, and northeast Linn county which baffles all the efforts of physicians. A large number of children are down with it, and fifteen or twenty deaths have resulted. One physician treated thirty-seven cases yesterday and last night. The local physicians are worked down and others from neighboring towns have gone to the rescue. The affected section is almost demoralized and a panic prevails.

### Death Rather Than Disappointment.

LINCOLN, NEB., July 19.—Chas. Minty, head bill clerk at the Missouri Pacific depot in this city, committed suicide last night by shooting himself through the heart. Disappointment in love is supposed to have been the cause. He left a note on the table in his room telling what he was going to do, and saying that his body would be found in the state house yard. His room mate awoke about 1 o'clock this morning and saw the note, summoned officers and went to the capital, where the body was found. His relatives live at Cresco, Iowa, and his remains have gone there.

### No Mixed Schools in Georgia.

ATLANTA, GA., July 19.—Wm. Glenn introduced a bill in the legislature making it a penal offense to educate white and colored children in the same institutions. There is a clause in Georgia's constitution against this, but much attention has never been paid to it. Glenn's bill provides a penalty for the teacher, principal or trustees of a school where white and black are mingled of not less than \$1,000 fine, twelve months in the chain gang or six months in jail. White teachers in colored schools claim the right to teach their children together with negroes.

### Earthquakes in Mexico.

EL PASO, TEX., July 19.—Close upon the heels of the news of the earthquake at Baviere, comes details of a still greater calamity at Ecuaric, a town twenty miles from Baviere. It had before the catastrophe 1,200 inhabitants; when Baviere was destroyed the town was badly shaken up and the inhabitants fled. Since then the town of Ecuaric has been visited by a succession of shocks that have reduced the whole town to ruins. Most of the people escaped as they fled the country terror stricken on the first disturbance.

### Council of Cutters.

CHICAGO, July 19.—The National Cutters Association began its fourteenth annual meeting in this city this afternoon. The association is composed of about 400 members in all parts of the country. The attendance of about 150 members is expected tomorrow.

### GRACIOUS GROVER.

The Jolly Junketer Quite Quizzotic "Among His Fayetteville Friends."

He Speaks a Word of Kindly Remembrance of Auld Lang Syne.

The Little Fishes That Refuse His Tempting Bait Not Forgotten.

The Panther Story Lost Its Terror in The Howling of the Mob of Disappointed Democrats.

He Curtly Declines to go to Gloucester, Mass., and Hastily Heads For Washington, Along With Little Dan.

### The Republic's President.

FAYETTEVILLE, N. Y., July 19.—This beautiful village, the boyhood home of Grover Cleveland, was to-day brilliantly decorated with national colors, a sign of popular greeting to the Republic's president. Large delegations from Syracuse and adjacent villages and towns came during the forenoon until the streets were overcrowded with curious crowds. Residences and shops, near places were profusely decorated. The old Cleveland Hope school house and academy which he attended were all suitably decorated, as also was the plain homestead of Mrs. Hoyt, the president's aunt.

The presidential party, including Mr. and Mrs. Cleveland and Secretary Fairchild, drove here from Cazenovia, making a circuitous route through the delightful region. They reached here shortly before noon, driving through the multitude on Main street to Mrs. Hoyt's residence. A committee of old acquaintances received and escorted the president. A large delegation of Syracuseans in carriages and on horseback was drawn up near the Hoyt residence and the party passed through the lines. A public reception took place an hour later in Clinton Park whither the president and Mrs. Cleveland were escorted by a procession headed by the Syracuse police, followed by an escort of 1000 citizens of Fayetteville and village authorities. Howard H. Edwards, boyhood companion of the president, made a brief address of welcome. The president being introduced to the large assemblage made acknowledgment by a formal bow and a brief speech. At one o'clock not more than 1,000 of those present had shaken the president's hand, and as it seemed impossible to greet them all personally, he made a short speech substantially as follows:

"My friends—I see that it is impossible in the short space allotted to shake all by the hand, and I am unwilling to leave without giving some recognition to all. I am unchanged today as far as my feelings are concerned toward the people of Fayetteville, and it is with extreme gratitude that I am with you. I find myself in a place, above all others, dear to me at the present time. It was here that I enjoyed every pleasure, sport and pastime of boyhood."

"I must recall to the minds of the citizens of Fayetteville some of the changes since forty years ago. Very many of the friends of that time are dead. I was reminded today of a number of friends who lived on the north side of your principal street, between the bridge and the street on which I used to turn down to the old parsonage, and I was astonished. Among those who are gone whom I can recall are Mr. Cobb, Mr. Parker, Mr. Gillette, the McKivvers, Wordens, Palmers, Edwards, Nobles, the Hurds, Flints and many others."

"There are other things that recall the scenes and incidents of my boyhood besides the dead. I remember Green Lake and the fish I tried to catch and never caught and which I suppose are there to-day. Yes, and I remember the story of the panther scene on the shore, where I was scared I was. But I have heard so much howling for the past two years that I do not think the panther would frighten me now. I could tell some of the old residents of Fayetteville who took off their front gates forty years ago. I mention this, since I have been in Washington. I have been accused of so many crimes that taking off a gate seems to me almost a virtue."

"I received my first rudiments of education in Fayetteville and these with the Sunday school and religious influences are now back fresh to my mind. All of these remembrances have gone with me through every station of life. It is a pleasure to recall in retrospect Fayetteville and those days, so many years ago; they are the finest and pleasantest memories that my mind dwells upon. I have taken you and the village of Fayetteville, with me; you are a part of this administration. I have been a bad traitor, but I ask that you keep an eye on me. I promise to perform my duties so as to receive the approbation of the people of Fayetteville, my oldest and best friends."

"After these words President Cleveland bade his friends adieu. The crowd was satisfied, however, and there were loud calls for Secretary Fairchild who then stepped forward and said:

"Friends and neighbors of Fayetteville—I thank you very much for remembering me on this day so fraught with interest to you, when you have here with you such a distinguished citizen and friend who has conferred so much honor on this town. I think as time goes past you will all feel the more proud of him. I thank you for mentioning my name in such a presence and at such a time."

"After dining with Mrs. Hoyt at about 3 o'clock the party started on their way back to Cazenovia. They take a special train at 6:30 o'clock this evening for Washington, making a brief stop at Cortland where Col. Lamont will join them."

### Had No Such Idea.

GLoucester, Mass., July 19.—Numerous reports have been printed to the effect that President and Mrs. Cleveland would visit Manchester by the sea in August. This local Mayor Robinson is invited to the president and his wife to visit Gloucester while they were in this vicinity. The mayor has just received a telegram from President Cleveland saying: "I have not the slightest idea of making the trip you speak of."

### Liabilities vs Assets.

NEW YORK, July 19.—Schedules of assignment of Gardner & Co., chair and settee manufacturers, were filed today. They show liabilities of \$90,500, assets \$115,040, actual
